DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The Prior Art does not fairly teach or suggest a sensor diaphragm having a plurality of diaphragm layers which are arranged in a mutually superposed relationship and which include a conveyor diaphragm, a first electrically conductive diaphragm layer arranged therebeneath, an electrically insulating diaphragm layer arranged therebeneath *and a second electrically conductive diaphragm layer arranged therebeneath*, wherein the first and second conductive diaphragm layers are separated from each other and electrically insulated by the electrically insulating diaphragm layer *and the second electrically conductive diaphragm layer has through portions which engage through openings in the electrically insulating diaphragm layer and through openings in the first electrically conductive diaphragm layer and the electrically insulating diaphragm layer has portions which engage through the openings in the first conductive diaphragm layer.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record on the attached PTO Form 892 and not relied upon is considered pertinent to applicant's disclosure.
